

Curtailed affecting NSPM and NSPW  
Northern States Power, an Xcel Energy Company  
Posted January 28, 2019

Extreme cold weather warning January 29 through February 1, impacting conditions on upstream pipelines.  
Firm Transport shippers will be held to noms, Interruptible Transport can expect to be curtailed.

Shippers are encouraged to monitor upstream pipeline conditions.

[Please contact your transport rep if you have questions.](#)

Sincerely,

Todd Nodes  
Manager, Gas Control
